Accusation

3. This Accusation is brought before the Medical Board of California (Board), Department of Consumer Affairs, under the authority of the following laws. All section references are to the Business and Professions Code unless otherwise indicated.

4. Section 820 of the Code states:

"Whenever it appears that any person holding a license, certificate or permit under this division or under any initiative act referred to in this division may be unable to practice his or her profession safely because the licentiate's ability to practice is impaired due to mental illness, or physical illness affecting competency, the licensing agency may order the licentiate to be examined by one or more physicians and surgeons or psychologists designated by the agency. The report of the examiners shall be made available to the licentiate and may be received as direct evidence in proceedings conducted pursuant to Section 822."

5. Code section 822 states:

"If a licensing agency determines that its licentiate's ability to practice his or her profession safely is impaired because the licentiate is mentally ill, or physically ill affecting competency, the licensing agency may take action by any one of the following methods:

- "(a) Revoking the licentiate's certificate or license.
- "(b) Suspending the licentiate's right to practice.
- "(c) Placing the licentiate on probation.
- "(d) Taking such other action in relation to the licentiate as the licensing agency in its discretion deems proper.

"The licensing section shall not reinstate a revoked or suspended certificate or license until it has received competent evidence of the absence or control of the condition which caused its action and until it is satisfied that with due regard for the public health and safety the person's right to practice his or her profession may be safely reinstated."

#### CAUSE FOR DISCIPLINE

(Mental or Physical Impairment) [Bus. & Prof. Code § 822]

- 6. Respondent is subject to disciplinary action under section 822 in that he is not safe to practice medicine safely as he suffers from a mental illness that affects his competency to practice medicine. The circumstances are as follows:
- 7. On or about January 8, 2013, the Medical Board of California received an anonymous complaint that called into question Respondent's mental competency. The Medical Board commenced an investigation, during which Respondent was interviewed and voluntarily agreed to submit to a mental evaluation.
- 8. On or about May 2, 2013, Respondent was evaluated by a psychiatrist. In the May 13, 2013 written expert report, the psychiatrist diagnosed Respondent with bipolar disorder, most recent episode hypomanic, in remission. The psychiatrist's report further identified indications of impaired judgment, including Respondent's "continued decision to manage his own medication in spite of the disastrous consequences that this approach caused in the past" and consuming and combining alcohol with benzodiazepines and opiates, which is potentially very dangerous. The psychiatrist also concluded that Respondent demonstrated cognitive impairment, as well as tangential and circumstantial thought process. The psychiatrist concluded that Respondent's ability to practice medicine is impaired at this time and that Respondent requires psychiatric treatment and supervision in order to practice medicine safely.
